

Volumetrics – Addition of New Miscellaneous Facility Type - SK EG

Jurisdiction	Release/Revision Date	Location of Change in this Document	Comment
SK	June 12, 2018		Initial Release

Audience: All Saskatchewan Users

Purpose: To inform Industry that Energy and Resources (ER) has added a new miscellaneous facility type to Petrinex.

Background: Effective May production month (2018-05), ER has added a new miscellaneous facility type SK EG (electrical generation) to Petrinex. This new miscellaneous type will be exclusively used to report gas that is being consumed during the generation of electricity that is sold back to SaskPower.

Battery, gas gathering system, gas plant and pipeline operators can use this miscellaneous type with the activity type of DISP or REC and only with the product type of GAS.

ER will continue to monitor the reporting of all miscellaneous code usage to ensure proper use.
