

Registry Alert

Registry Enhancements: Notifications

Release/Revision Date	Location of change in this document	Comment
October 28, 2003		Initial Release

Audience: All Stakeholders

Purpose: This alert outlines the impact enhancements have on Registry notifications.

Background: This enhancement was brought forward and funded by industry.

Enhancements involving Notifications (Success/ Failure) for Volumetrics and Allocations have a scheduled release date of October 29, 2003.

Enhancements involving Notifications (Success/Failure) for Well Status and Pipeline Splits have a scheduled release date of December 3, 2003.

Key Principles: These changes are designed to (1) enhance item identification (process type, file source name), (2) improve message content (success/failure), and (3) provide enhanced sorting functionality.

The enhancements will update the subject line of the validation results notifications to include:

- Success or Failure
- File source name

Success means the data was processed without any errors or warnings.

Failure means the data was processed with errors and/or warnings.

Notification messages have been standardized. Therefore, sorting by subject will bring all messages of the same process type together with failures being listed before successful messages.

See listing below for affected notifications.

Notification Subject Change

Process Type	Task	Current Message Subject	Notif #	New Message Subject
Volumetric Submission				
UT – Volumetric Submission	Edit Volumetric Submission	Volumetric Submission Validation Results	VOLUM001	Validation Results Vol: Success – [filename]
			VOLUM012	Validation Results Vol: Failure – [filename]
Allocation Submission				
UT – Stream Allocation SAF	Manage Stream Allocation Factors	Validation Results	ALLOC001	Validation Results Alloc (SAF): Success – [filename]
			ALLOC012	Validation Results Alloc (SAF): Failure – [filename]
	Manage SAF / OAF Volumes	Validation Results	ALLOC003	Validation Results Alloc (SOV): Success – [filename]
			ALLOC013	Validation Results Alloc (SOV): Failure – [filename]
UT – Owner Allocation (OAF)	Manage Owner Allocation Factors	Validation Results	ALLOC005	Validation Results Alloc (OAF): Success – [filename]
			ALLOC014	Validation Results Alloc (OAF): Failure – [filename]
Well				
UT – Well Status Change	Well Status Change	Validation Results	WELL008	Validation Results Well (Status): Success – [filename]
			WELL019	Validation Results Well (Status): Failure – [filename]
	Commingle Well	Validation Results	WELL015	Validation Results Well (Comm): Success – [filename]
			WELL020	Validation Results Well (Comm): Failure – [filename]
Transportation Allowance				
UT – Manage Transportation Allowance and Overdelivery Claims	Validate and Record Transportation Allowance and Overdelivery Claims	Transportation/Overdelivery Claims submission	TAC001	Validation Results TAC: Success – [filename]
			TAC003	Validation Results TAC: Failure – [filename]

Notification Subject Change				
Process Type	Task	Current Message Subject	Notif #	New Message Subject
				[filename]
Pipeline Splits				
UT – Gas Pipeline Split	Validate and Record Monthly Gas Shipper List	Shipper Data Submission	GPS001	Validation Results GPS (Monthly Shipper): Success – [filename]
			GPS012	Validation Results GPS (Monthly Shipper): Failure – [filename]
	Validate and Record Static Gas Shipper List	Shipper Data Submission	GPS013	Validation Results GPS (Static Shipper): Success – [filename]
			GPS014	Validation Results GPS (Static Shipper): Failure – [filename]
	Validate and Record Split to Shipper/Owner and Other Facilities	Split Submission	GPS002	Validation Results GPS (Split): Success – [filename]
			GPS015	Validation Results GPS (Split): Failure – [filename]
UT – Oil Pipeline Split	Validate and Record Monthly Shipper List	Shipper Data Submission	OPS001	Validation Results OPS (Monthly Shipper): Success – [filename]
			OPS012	Validation Results OPS (Monthly Shipper): Failure – [filename]
	Validate and Record Static Shipper List	Shipper Data Submission	OPS013	Validation Results OPS (Static Shipper): Success – [filename]
			OPS014	Validation Results OPS (Static Shipper): Failure – [filename]
	Validate and Record Split to Shipper/Owner and Other Facilities	Split Submission	OPS002	Validation Results OPS (Split): Success – [filename]
			OPS015	Validation Results OPS (Split): Failure – [filename]
