

BC Allocations Trigger Tables

As of May 20, 2020

The following table shows a list of the volumetric transactions that would trigger a mandatory allocation that must be filed for regulatory purposes for each of the 8 allocation Royalty Types in Petrinex.

The following table shows how Petrinex will populate the new allocations fields (Royalty Trigger Facility, Linked Pipeline) by Royalty Type.

Royalty Type	Royalty Trigger Facility	Linked Pipeline
Gas Royalty	First GP downstream of the stream/well	PL linked to Meter Station
Royalty (GP/COS)	First GP downstream of the stream/well	N/A
Dry Gas	Submitting BT/GS	PL linked to Meter Station
Field Sale	N/A	N/A
Inlet COS	First GP downstream of the stream/well	N/A
Royalty Vol Credit	Returned Fuel GP for BT in Facility Infrastructure	PL linked to Meter Station
Returned Gas COS	Returned Fuel GP for BT in Facility Infrastructure	N/A
NGL Royalty	First GP downstream of stream/well	N/A
