Audience: All Alberta Stakeholders

Purpose: This tip informs clients that files will be rejected if they contain duplicate sections within one transaction when submitting a batch file for ownership changes for a Facility Cost Centre (FCC) - AC1.

Key Principles: When submitting a batch file for ownership changes on an AC1, files may not contain duplicate sections within one transaction.

EXAMPLE: If ownership changes are required for FCC 1234567 for the period of 2008/01 and then there are subsequent ownership changes effective 2009/05, two separate files must be submitted. Remember to wait for the DOE confirmation before sending in the second file.

Sending both ownership changes in one file will cause the file to be rejected.
