

Petroleum Registry of Alberta

## Registry Tip

# Additional Product Reporting for Miscellaneous Code AB OT

Release/Revision Date	Location of Change in this Document	Comment
August 15, 2011		Initial Release

**Audience:** All Stakeholders

**Purpose:** To advise Industry that the ERCB now allows the reporting of **Oxygen (02)** as an Enhanced Recovery Technique and effective July 7, 2011 the Petroleum Registry will allow Industry to report the product Oxygen (02) when using miscellaneous code AB OT.

**Key Principles:** Operators of an Injection Facility can now show a receipt of product Oxygen (02) From/To AB OT and balance it by showing injection at a well level for any production month.

**More information:** Please contact the PA Help Desk.
