

**New On-Line Registry Message When Reporting
Fuel, Vent, and Flare at a Well Level**

Jurisdiction	Release/Revision Date	Location of Change in this Document	Comment
AB/SK	August 8, 2012		Initial Release

Audience: All Petrinex Users

Purpose: This tip informs Petrinex users that effective August 1, 2012 a new Petrinex on-line message “Fuel/Vent/Flare volume is greater than the gas production volume for [ABWI...]” will be displayed when fuel, vent and/or flare is reported at the well level and the total volume exceeds the gas production for the well.
