

Oil and Gas Royalty/Tax Format Display Change

Jurisdiction	Release/Revision Date	Location of Change in this Document	Comment
SK	February 13, 2014		Initial Release

Audience: All SK Users

Purpose: To describe a change on the “Manage Ministry Reporting” screen in the “Ministry Invoices and Statements” section on Petrinex for Saskatchewan users.

Background: Previously on the “Manage Ministry Reporting” screen, Report Names for each format type (i.e. PDF or XML) were being shown individually on separate lines.

Key Message: Effective February 1, 2014, the drop down menu can be used to choose either a PDF or XML view format of the Report Name. As a result, each Report Name is now listed only once.

Several additional changes aimed at further improvements to this functionality are forthcoming:

- Effective April 2014, additional functionality will allow users the option to search for invoices by invoice number; and
- The Report Package name currently labeled as “Invoices” will be renamed as “Waiver Invoices” (Note: More information to follow as a release date has not yet been finalized for this change)

More information: Please contact the PETRINEX Service Desk.
