

Release of revised edition of AER *Directive 007: Volumetric and Infrastructure Requirements and Manual 011: How to Submit Volumetric Data to the AER* (formerly the *On-Line Supplement to Directive 007*)

Jurisdiction	Release/Revision Date	Location of Change in this Document	Comment
AB	Mar 19, 2015	Key Principles	Added text on how to access the updated Directive and Manual on the AER Website
AB	Feb 26, 2015		Initial Release

Audience: All stakeholders

Purpose: To notify stakeholders of the revised edition of *Directive 007: Volumetric and Infrastructure Requirements and Manual 011: How to Submit Volumetric Data to the AER*.

Background: Since the last release of *Directive 007* and *On-Line Supplement* in September 2011, several AER process initiatives have been implemented that have resulted in volumetric reporting changes at the AER.

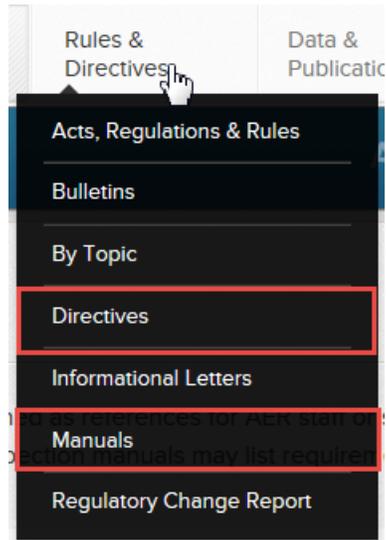

Key Principles: Revisions to the new editions consolidate requirements and processes that have already been published as tips on the Petrinex website.

The water source code table now appears on the [AER Directive 007](#) webpage.

Outdated references have been updated and *Directive 007* and *Manual 011* have been written in plain language to improve readability.

Refer to AER *Bulletin 2015-08, Directive 007* and *Manual 011* on the AER website www.aer.ca under

Rules & Directives – Directives
