

**The Ministry of Economy Will Begin Assessing
Royalty Tax Payer (RTP) Errors Previously
Suspended from Penalties**

Jurisdiction	Release/Revision Date	Location of Change in this Document	Comment
SK	January 25, 2016		Initial Release

Audience: All Saskatchewan Users

Purpose: This tip is to inform SK Petrinex users that beginning with the Production Month 2015-12 the Ministry of Economy (ECON) will once again be assessing the RTP 037, RTP 101, RTP 103, RTP 104 and RTP 105 errors. These chargeable errors were temporarily excluded from being assessed penalties while the Ministry confirmed the integrity of the Royalty Tax Payer and Royalty Tax Attribute information (RTA).

Background: During ECON's conversion from the old systems to the new IRIS system it was discovered that certain RTP and RTA information did not convert accurately. As a result, the Ministry suspended penalties associated with the above noted RTP errors until such time as the data could be verified. That verification process is complete and the integrity of the data confirmed.

Key Messages: The Ministry of Economy will begin assessing penalties effective with the production month 2015-12, for the following errors:

- RTP 037
- RTP 101
- RTP 103
- RTP 104
- RTP 105

TIP

It is important to note that Business Associates may receive errors that could relate back to March 2012 production month depending on the individual error.

ECON's expectation is that BAs monitor their non-compliance report and make necessary corrections to RTP records prior to the reporting deadlines to ensure a balance between the RTA and RTP mineral ownership details. Uncorrected errors will result in non-compliance penalties.

Waivers will not be considered unless the BA can clearly demonstrate that they were not provided with time to make necessary changes to RTP records.
