

## New Well Hydraulic Fracturing Report

Jurisdiction	Release/Revision Date	Location of Change in this Document	Comment
AB	November 7, 2016		Initial Release

**Audience:** All Stakeholders

**Background:** A new report titled “**Well Hydraulic Fracturing Report**” has been created in Petrinex detailing the well hydraulic fracturing information that is already being submitted to the Alberta Energy Regulator (AER) by Industry via their Digital Data System (DDS). Historically this data was only available in AER Systems, however this data now supports the Modernized Royalty Framework (MRF).

**Procedures:** Effective October 6, 2016, the **Well Hydraulic Fracturing Report** is available for Industry to request the well hydraulic fracturing data supplied to Petrinex from AER. This report is available under the Submit Report Request menu.

Selection parameters for the report are:

Wells – All or List  
Licensee – All or List\*  
Licence Numbers – All or List

Report Formats: PDF, XML or CSV

\* The licensee will be defaulted to the requesting BA (Business Associate).

Please note: Only the licensee can view this data. When the well is confidential, only users with access to confidential wells within that licensee company (BA) can view the data. See the summary table below as to the security permissions for this report.
