

New IOGC First Nation (FN) Interest Discrepancy Report

Jurisdiction	Release/Revision Date	Location of Change in this Document	Comment
AB/SK	Oct 21, 2020	Throughout Document	This report is now available in AB also.
SK	June 11, 2019		Initial Release

Audience: All AB and SK Operators with “IOGC of Interest” wells

Purpose: The IOGC First Nation (FN) Interest Discrepancy Report has been available to Saskatchewan operators since June 2019 and as of September 3, 2020 is available to Alberta operators of active wells that are IOGC of Interest. This tip describes the information contained in this new report.

Background: The **IOGC FN Interest Discrepancy Report** lists the IOGC interest percentage as provided by Indian Oil and Gas Canada (IOGC), the First Nation (FN) interest percentages as provided by the Government of Saskatchewan through Royalty Tax Attributes, and the Government of Alberta through Production Entities, and calculates any discrepancies between the two. This comparison will provide a transparent picture of these discrepancies for progressive cleanup of any differences.

NOTE: *The purpose of this report is to display Interest percentage discrepancies on a go forward basis [beginning 2018] for actual active wells maintaining a valid lease.*

The IOGC FN Interest Discrepancy Report was available June 6, 2019 for Saskatchewan operators of active wells that are IOGC of interest, and available on September 3, 2020 for Alberta operators of active wells that are IOGC of Interest. This report is available to Industry, IOGC, the Government of Saskatchewan and the Government of Alberta.

TIP

Procedures

The procedures are the same for both Alberta and Saskatchewan. Select the IOGC FN Interest Discrepancy Report from the Petrinex Menu - Reports and Queries - Submit Report Request.

Users will enter the required report parameters including Start Production Month, End Production Month, and Streams (All or selected) and Report Format (PDF, CSV, XML).

The logged in BA is displayed as the default operator however, other operators can be requested using the list builder. Only IOGC, the Government of Saskatchewan and the Government of Alberta can request "ALL" Operators. Users can select specific Products or leave the selection as the default of "ALL".

This report is queued as a Daytime Report and you will receive an email notification when the report is available in your BA Inbox.
