

Changes to use of MB Facility IDs

Jurisdiction	Release/Revision Date	Location of Change in this Document	Comment
SK/MB	Aug 17, 2020		Initial Release

Audience: All SK Facility Operators

Purpose: To notify SK operators of changes related to the use of existing Manitoba (MB) facility IDs.

Background: There are currently a number of MB facility IDs set up in the SK jurisdiction in Petrinex. The Ministry of Energy and Resources (ER) created these Manitoba facility IDs for SK operators who deliver products to Manitoba for the purpose of accurately reporting deliveries.

Manitoba joined Petrinex on May 4 of this year for the April production month. As such, transactions between SK and MB will follow the same cross-border volumetric reporting standards that exist between Saskatchewan and Alberta. This means that all MB facilities will be maintained in the MB jurisdiction in Petrinex.

Volumetrics will follow the Petrinex standards of auto-population, where the MB operator must submit a receipt at their facility in order to auto-populate the disposition at the SK facility.

- Please note the only exception to this is the Enbridge Mainline (Manitoba) pipeline listed below. As it is a non-reporting pipeline facility subtype. SK operators must submit a disposition directly to this facility ID.
- Amendments for periods prior to April 2020 will continue to be submitted under the old reporting

method (i.e. the SK operator submits the disposition to the MB facility ID).

A review of the existing MB facility IDs created in Saskatchewan's jurisdiction in Petrinex was conducted with the Government of Manitoba to determine the facilities that must be maintained in the Manitoba jurisdiction by Manitoba facility operators. The following facility IDs will be end-dated in the SK jurisdiction as of 2020-03-31 and active in the MB jurisdiction as of 2020-04-01:

Facility ID	Sub Type	Facility Name
MBPLOP00055	210	ENBRIDGE MAINLINE (MANITOBA)
MBTM0005130	674	PEMBINA CROMER NGL 13-17-010-28W1
MBTMTT08001	674	CROMER TRUCK TERMINAL
MBTMTT08003	674	CROMER TERMINAL (PLAINS)
MBTMTT08004	674	TUNDRA CROMER TERMINAL

The following facility IDs which have been confirmed by the Manitoba government that have never been used in SK reporting, are not active or do not exist in Manitoba. The facility IDs will be end dated in the SK jurisdiction as of 2020-03-31 and have not been be set up in the MB jurisdiction:

Facility ID	Sub Type	Facility Name
MBGP0006555	411	EOG Waskada Gas Plant
MBPLOP00028	210	ENBRIDGE VIRDEN PIPELINE
MBPLOP00029	210	WASKADA PIPELINE

MBPLOP00057	210	WAPPELLA PIPELINE (MANITOBA)
MBTM0002052	674	CN WOODNORTH RAIL TERMINAL
MBTM0002053	674	WASKADA TERMINAL
MBTM0010937	676	CN WOODNORTH RAIL TERMINAL
