

SK Infrastructure – Update Facility Subtype 362, 363, 364 and 517 to Licence Type Link

Jurisdiction	Release/Revision Date	Location of Change in this Document	Comment
SK	January 25, 2021		Initial Release

Audience: All Saskatchewan Users

Purpose: To inform Industry of adjustments made to the SK Code Table on Petrinex to allow additional facility subtype/licence type links.

Background: Effective December production month (2020-12), Energy and Resources has adjusted the SK Code Table to allow:

- Facility subtypes 362 (gas multiwell effluent measurement battery), 363 (gas multiwell proration SW Saskatchewan battery), and 364 (gas multiwell proration outside of SW Saskatchewan battery) to be linked to Licence Types GC - gas compression facility.
- Facility subtype 517 (underground NGL storage) to be linked to licence types: H - multiwell gas battery, and GC – gas compression facility.
