

**Royalty/Tax Payer – Penalty Suspension of RTP101 and RTP104 Errors - MOSR3**

<b>Jurisdiction</b>	<b>Release/Revision Date</b>	<b>Location of Change in this Document</b>	<b>Comment</b>
SK	July 22, 2021		Extension of suspension of penalties associated with RTP101 Petrinex errors.
SK	April 29, 2021		Initial Release

**Audience:** All Saskatchewan Users

**Purpose:** Extending the suspension of penalties associated with RTP101 Petrinex errors for two months.

To inform Industry that changes have been made to the Royalty/Tax Payer information in IRIS which may have caused RTP101 and RTP104 errors

**Background:** Effective March production month (2021-03), Energy and Resources released the Mineral Ownership Spatial Record 3 functionality in Saskatchewan's Integrated Resource Information System (IRIS) on April 10, 2021 which created a substantial change to industry with respect to the automated population of royalty/tax payer data which may have resulted in inconsistencies between Petrinex and IRIS. Due to this functionality change, Energy and Resources will be suspending penalties associated with RTP101 and RTP104 Petrinex errors. This period will provide time for well completions, injection facility and unit operators or licensees to explore and correct these inconsistencies.

Energy and Resources will be extending the suspension of penalties associated with RTP101 Petrinex errors by two months, therefore the inconsistencies should be corrected prior to the Royalty/Tax Payer reporting deadline on September 30, 2021 (production month 2021-08).

Any discrepancies that are not amended after the August 2021 production month, by the reporting deadline on September 30, 2021, will incur penalties.
