

## **IOGC Reporting Changes in Saskatchewan**

Jurisdiction	Release/Revision Date	Location of Change in this Document	Comment
SK	July 7, 2021		Initial Release

**Audience:** All Saskatchewan Users

**Purpose:** To inform Industry that as of July 8, 2021 Indian Oil and Gas Canada [IOGC] went live in Petrinex with extracts from Petrinex to IOGC and additional functionality in Saskatchewan. This takes Industry closer to the day when duplicate reporting [to IOGC and Petrinex] will no longer be required, once IOGC is fully stabilized in the Saskatchewan Platform (by October 2021).

Please also review the **Indian Oil and Gas Canada (IOGC) Royalty Update you received on May 28, 2021** for information on what submissions are still required to be submitted to both IOGC and Petrinex and what to expect in the future.

**Background:** **Effective July 8, 2021** Industry will have available a new IOGC report in Saskatchewan called *IOGC Working Interest Owner Report*. This report will provide details at the reporting facility/production month level, identifying the stream id's which are listed on a submitted SAF, are of interest to IOGC and where the requesting BA ID is listed on an RTP for that stream. This report is available for products of GAS and OIL only with an Energy field shown for product GAS.
