

## IOGC Oil Valuation Pending or Pending Delete Records Report

Jurisdiction	Release/Revision Date	Location of Change in this Document	Comment
AB	June 5, 2024		Initial Release

**Audience:** All Alberta IOGC Users

**Purpose:**

To advise AB IOGC users that a new report is available in Petrinex to assist with IOGC oil valuation reporting. Indian Oil and Gas Canada requested changes in Petrinex effective June 6, 2024, for an Alberta version of a report that is available in Saskatchewan.

**Background:**

The Petrinex "Oil Valuation Existing Pending or Pending Delete Records Report" is available to assist Industry with IOGC oil valuation reporting by itemizing the pending or pending delete records for each instance when a requesting BA was named as a purchaser or royalty tax payer. Once the oil valuation record is reviewed, the reporting BA may accept the change by clicking submit or, if it was created in error, contact the company that caused the record to be generated and ask the company to submit an amendment to remove the record.

A Petrinex auto-generated warning report in PDF and CSV formats is available in a user's Inbox the day prior to the IOGC RTP and IOGC Oil Valuation RTP deadlines on the last working day of the month. This report can also be requested on-demand in PDF, CSV and/or XML formats using the Submit Report Request functionality on the IOGC Petrinex menu.
