

Saskatchewan Helium Valuation Non-Compliance Errors Billing

Jurisdiction	Release/Revision Date	Location of Change in this Document	Comment
SK	August 08, 2024		Initial Release

Audience:

All SK Helium Producers and Owners

Purpose:

To advise SK users that effective August 8, 2024, Saskatchewan Energy and Resources (SER) will be implementing Helium Valuation Non-Compliance Errors Billing functionality for all errors not corrected by the valuation deadline (including prior period February 2023 to present).

Background:

On March 2, 2023, Petrinex implemented enhancements to include Non-Hydrocarbon Gas Valuation in Saskatchewan effective production month February 2023. The only valid product is Helium. For more information about the functionality, the Petrinex tip can be found [here](#). At that time, Helium Valuation Non-compliance Errors Billing functionality was not included.

Key Principles:

Effective August 8, 2024, Helium Valuation Non-Compliance errors will be assessed for penalty and invoiced for all errors, including prior period (February 2023 to present) not corrected by the Valuation Reporting deadline, which falls on the last working day of each month. To check deadline information, refer to the monthly [Saskatchewan Reporting Calendars](#).

To assist users to determine if there are any outstanding non-compliance errors, a Non-Hydrocarbon Gas Valuation Non-Compliance Report – Warning Report is generated by Petrinex prior to the deadline and is available in the Petrinex inbox. In addition, helium producers and owners can run an on-request version of this report at any time to check their existing noncompliance errors.

The following table shows the types of errors that can be triggered, the associated noncompliance fee and the assessment frequency:

Business Name	Validation Rule	Result	Message	Error Number	Non-compliance fee per month	Assessment Frequency
	If no errors exist		No Message			
Missing Valuation Submission	If the valuation doesn't have a sales volume and/or value submitted and the flag is not checked	Error	Submission missing and is required.	NHGE001	\$100 per facility	Recurring Monthly
Pending Valuation Submission	If the valuation pending flag is set equal to 'Y'	Error	Submission is in pending status and submission is required.	NHGE002	\$100 per facility	Recurring Monthly
Estimate Valuation Submission	If the estimate valuation estimate flag is equal to 'Y' for less than or equal four (4) months	Warning	Submission is an estimate.	NHGE003	No charge	N/A
Estimate Valuation Submission for more than four (4) months	If the valuation pending flag is set equal to 'Y' for more than four (4) months	Error	Submission is an estimate for more than four (4) months.	NHGE004	\$100 per facility	Recurring Monthly
Missing Document Attachments for Valuation Submission	If the valuation estimate flag is equal to 'N' and no Document Reference Link	Error	Submission is missing required document attachments.	NHGE005	\$100 per facility	Recurring Monthly
Unused Document Attachment for Valuation Submission	If there is a Document that is not referenced in the valuation submission	Error	Unused document attachments.	NHGE006	\$100 per facility	Recurring Monthly
